

144 Optical Cross-Connect Box Price Quotation

Overview

Kindly: This price is only for the cabinet and the splice tray, not including the adapter and the pigtail.

Key Takeaways

The price of a 144-core Optical Cross-Connect (OCC) box typically ranges from \$300 to \$600, depending on the manufacturer, material, and included accessories. Pricing Overview

The cost of a 144-core OCC box varies based on factors such as material (SMC or steel), indoor/outdoor suitability, IP rating, and whether accessories like adapters, pigtails, or splice trays are included. For example, FiberZON offers a 144-fiber distribution cross-connect cabinet for indoor and outdoor use, with the price covering the cabinet and splice tray only, excluding adapters and pigtails, and provides free shipping . Other suppliers, such as Sun Telecom and MyLinkwell, offer similar cabinets with high waterproof and dustproof performance, suitable for FTTH, GPON, and WDM networks .

Features Affecting Price

- Material: SMC (Sheet Molding Compound) or cold-rolled steel affects durability and cost .
- Mounting Options: Floor, wall, or pole-mounted cabinets may have different prices.

- Accessories: Inclusion of splice trays, adapters (SC, LC, FC), and pigtails can increase the total cost.
 - Protection Level: Cabinets with IP65 rating for outdoor use are generally more expensive due to waterproofing and dustproofing.
- Supplier Guidance

To obtain an exact price, it is recommended to contact suppliers directly, as prices may vary with order quantity, shipping location, and optional features. Suppliers like FiberZON, Sun Telecom, MyLinkwell, and SEESUO provide detailed specifications and can offer quotations based on your requirements. In summary, a 144-core Optical Cross-Connect box is generally priced between \$300 and \$600, with the final cost depending on material, accessories, and supplier. For precise budgeting, requesting a quote from the manufacturer or distributor is advised.
