

50kW Hybrid Energy System for Photovoltaic Power Plants

Overview

The 50kw solar power system consists of solar panels, a 50kw solar hybrid inverter, 81.92kwh solar batteries lithium-ion type, mounting structures, and solar accessories, it is suitable for single phase electricity power needs in residential and commercial areas with. SUN-50K-SG01HP3-EU-BM2 is a new three-phase hybrid inverter with 160-800V high voltage battery, ensuring system efficiency and lower heat dissipation. With compact design and high power density., this series supports DC/AC ratio of 1.3, saving investment in devices. Supports three-phase unbalanced. With Felicitysolar's 50kW hybrid inverter and high-voltage battery packs, you gain more than just a power system—you gain energy freedom. The HJ-HV-50-100 is an advanced high-voltage all-in-one solar energy storage solution designed for hybrid photovoltaic systems in industrial and commercial scenarios.
