

Are fiber optic patch panels sold as a complete set

Overview

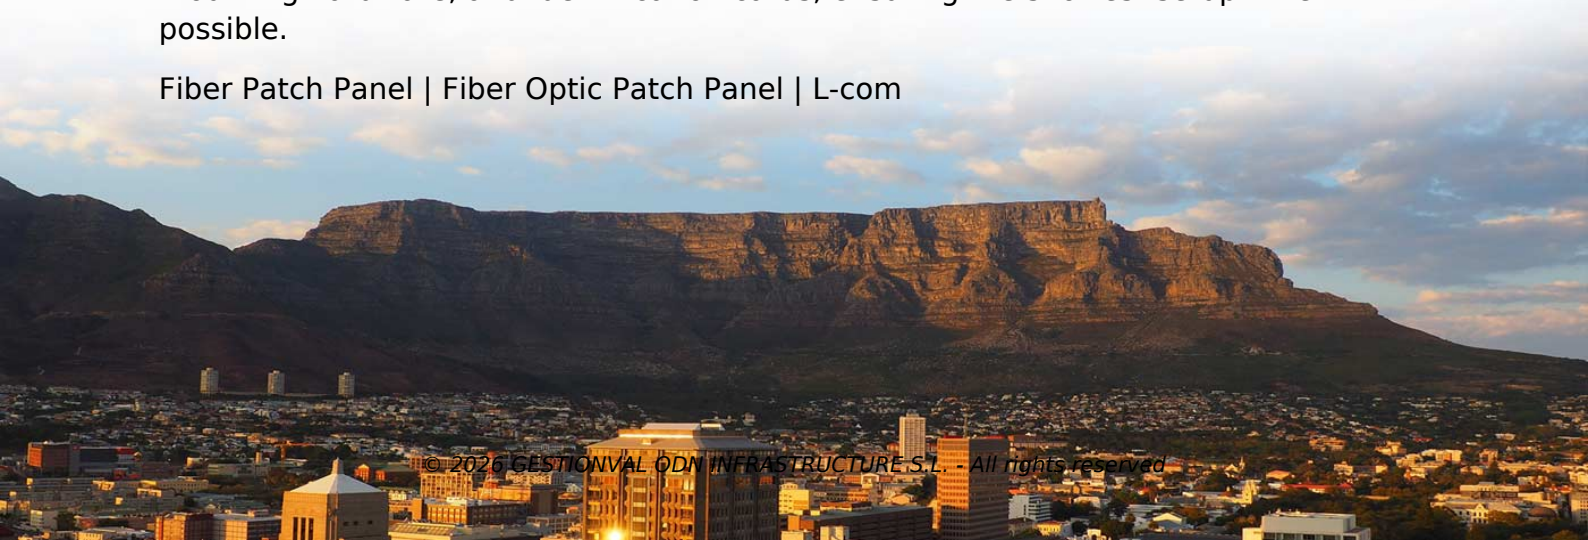

All fiber patch panels come with pre-terminated connectors, a complete set of mounting hardware, and identification cards, ensuring the shortest setup time possible. Choose from configurations including 12 fiber 24 core, 48, 72, and 144 fiber options. Our offerings include standard 1U, 2U, 3U, and 4U (LIU) fiber optic patch panels. OptoSpan offers four unique types of fully-loaded fiber patch panels, each with its own unique set of features developed to meet the increasing demand for high performance communications. They serve as the central point where feeder cables, distribution lines, and active equipment ports meet. Our 19-inch rack-mount panels are constructed from .06 cold-rolled steel with durable black powder coat.
