

Belgian Fireproof and Flame-Retardant Cable Tray Manufacturer

Overview

Trayco products: high-quality cable support systems | TraycoTrayco has an extensive range of high-quality cable trays, cable ladders, mesh trays, mounting.

Key Takeaways

Trayco and Beerenberg are leading Belgian manufacturers offering fireproof and flame-retardant cable trays and support systems.Trayco

Trayco specializes in 100% Belgian cable trays, mesh trays, and cable ladders, providing solutions optimized for fire safety and electrical installations. Founded in 2012, Trayco offers customized cable management systems and expert guidance during installation, ensuring compliance with fire safety standards and efficient project execution. Their products are designed for durability and can be tailored to specific load and environmental requirements, making them suitable for industrial and commercial applications (Trayco) .

Beerenberg - Benarx Epoxy Cable Tray

Beerenberg manufactures the Benarx Epoxy Cable Tray, a prefabricated system designed for passive fire protection (PFP) of critical power and signal cables. The trays are made of perforated steel coated with epoxy, providing mechanical robustness and fire resistance. The system allows quick installation and easy maintenance, and it maintains cable integrity during fire events. Benarx trays are suitable for all weather conditions and reduce long-term maintenance costs compared to traditional ceramic fire protection (Beerenberg) .

Nexans – ALSECURE® Cables

While primarily a cable manufacturer, Nexans Belgium offers the ALSECURE® range, which includes fire-resistant and fire-retardant cables. These cables are designed to minimize fire spread, smoke production, and toxic gas emissions, complementing fireproof cable tray systems. Nexans provides guidance on compliance with Belgian fire safety regulations (AREI/RGIE 2020) and ensures that cables installed in trays meet the required fire performance classes (Nexans) .

Meka Pro

Meka Pro provides fire-resistant cable support systems that are tested according to EN 1363-1 standards. Their systems ensure that electrical supply remains functional during fire events and that cable trays withstand mechanical loads without collapsing. Meka Pro emphasizes the use of non-toxic materials and compliance with international fire safety standards, making their products suitable for critical installations (Meka) .

Summary

For Belgian fireproof and flame-retardant cable trays, the following manufacturers are notable:

- Trayco: Customizable Belgian cable trays, mesh trays, and ladders with fire safety optimization .
- Beerenberg (Benarx): Epoxy-coated steel trays for passive fire protection, robust and easy to maintain .
- Nexans: Fire-resistant cables compatible with cable trays, ensuring compliance with Belgian fire safety standards .
- Meka Pro: Fire-tested cable support systems with non-toxic materials and international standard compliance . These manufacturers provide solutions suitable for industrial, commercial, and critical infrastructure projects, ensuring both fire safety and long-term reliability. For project-specific requirements, contacting the manufacturers directly for customized quotes and technical advice is recommended.
