

Cambodia Independent Switch 800G

Overview

Now shipping to customers worldwide, this open network switch offers 64-port 800GbE interfaces in a 2RU fixed box, delivering high performance with complete L2 and L3 forwarding features for modern, large-scale data center networks. All types of Switch are available at TK Computer Kh @ Phnom Penh Cambodia. Our UfiSpace 800G networking solutions, featuring the standalone Tomahawk ® 5 Ethernet Switch Series and the Distributed Disaggregated Chassis (DDC) equipped with Jericho3 and Ramon3, are designed to meet the rigorous requirements of AI-driven environments. UfiSpace was the first to revolutionize. Guided by core values of Ethics, Customer Value, Agility and Network Performance; Alpha Networks Inc. is dedicated to balancing technology with humanism as it pursues a company-wide commitment to become a world-class DMS that contributes to the improvement of living quality with innovative. With the development of the Internet and the continuous upgrading of data centers, 400G and 800G switches have become the latest trend in network technology. These switches can provide higher bandwidth and faster speeds to support more users and more applications. In addition, with the continuous. SAN JOSE, Calif. 16, 2024 (GLOBE NEWSWIRE) -- Micas Networks today announced the availability of its new 800G Tomahawk 5 Ethernet Switch - the M2-W6940-64OC.

800G Switch

Our UfiSpace 800G networking solutions, featuring the standalone Tomahawk ® 5 Ethernet Switch Series and the Distributed Disaggregated Chassis (DDC) equipped with Jericho3 and Ramon3, are

Open Networking Solutions Innovator's New Data Center Switch Now ...

Micas Networks' new 800G Tomahawk 5 Ethernet Switch is now shipping to customers worldwide. This next-generation, high-density ethernet switch brings ultra-high performance to AI/ML applications.

NVIDIA's 800G Ethernet switch powers the AI-based Colossal ...

The Spectrum SN5600 supports speeds of up to 800 Gbits/sec and is based on the Spectrum-4 switch ASIC. xAI is pairing the Spectrum-X SN5600 switch with NVIDIA BlueField-3 SuperNICs.

Supermicro SSE-T8164 800G Ethernet Switch

The 800G ports in the SSE-T8164 are flexible and can be broken down to 400G, 200G, 100G using breakout cables. The choice of multiple port speeds from 25G to 800G and the advanced software

Supermicro SSE-T8164 800G Ethernet Switch

Supermicro SSE-T8164 800G Ethernet Switch Designed specifically to enhance data center networks, the SSE-T8164 offers 64 ports at 800 gigabits per second. These switches ensure accelerated

Broadcom Introduces 800G NIC and New Ethernet Switch

In two new product announcements, Broadcom says it has made important advances in network connectivity equipment. Today, Broadcom introduced the Thor Ultra, an 800G AI Ethernet
