

Canadian manufacturer ONT 10G optical network terminal

Overview

These 10G optical network terminals for fiber-to-the-premises applications can be managed remotely and are interoperable with the Cisco Routed PON solution.

Key Takeaways

The Tellabs FlexSym® Optical Network Terminal 202 (ONT202) offers two multi-gigabit Ethernet options for 1G, 2.5G, 5G and 10G speed connectivity over a 10-gigabit symmetrical passive optical network (ITU G. Cisco's family of 10-Gbps symmetrical passive optical network (XGS-PON) Optical Network Terminals (ONTs) delivers flexible, high-performance broadband connectivity for a wide range of fiber-to-the-premises use cases, including residential spaces, Multidwelling Units (MDUs), Small Office/Home Office. For broadband access, we have already mass-produced all mainstream, standard-rate optical network terminals in accordance with the latest industry standards. In parallel, we are actively developing next-generation products, including higher-rate ONT networking products and AI Smart Terminals with. We're the recognized leader in FTTH broadband technology and we have an extensive ONT portfolio to prove it. And now we bring you our Wi-Fi 7 ONT, for the highest in-home speeds. It is designed to deliver triple play services in a fiber to the home. Nokia ONT XS-010XR-P - XGS-PON reverse powered ONT The Nokia Optical Network Terminal (ONT) XS-010XR-P that has one 1/10 Gigabit Ethernet (GigE) is part of the industry-leading Nokia ONT product family and is compatible with the Nokia ISAM and Lightspan fiber- to-the-x (FTTx) product line. It is. 10G-PON (also known as XG-PON or G. This is the ITU-T 's next-generation standard following on from GPON or gigabit-capable PON.
