

Construction Site Support Box and Distribution Box Manufacturer

Overview

Construction Site Power Distribution Solutions | Power Adjust quickly as your site evolves with our portable power panels and distribution boxes. Designed.

Key Takeaways

Leading manufacturers of construction site support and distribution boxes include Wieland, Coloria Group, Shengen, Walther-Werke, and Modipro, offering robust, customizable, and compliant solutions for temporary and permanent installations. Key Manufacturers and Offerings

Wieland provides smart and decentralized distribution boxes suitable for buildings and industrial plants. Their solutions support pluggable installation, energy and signal distribution, and are designed for harsh environments, including moisture-prone areas. Wieland emphasizes energy efficiency, flexible communication-enabled systems, and compliance with IEC 61439 and IEC 61535 standards, making them ideal for modern construction projects and smart buildings . Coloria Group is a global supplier offering end-to-end solutions for construction projects. Their distribution boxes are engineered for harsh environments, meet international safety standards (IEC, UL, SASO), and integrate smart technologies for remote monitoring. They provide customization, on-site support, and sustainable materials aligned with green building trends . Shengen specializes in custom power distribution boxes with modular designs, flexible input/output configurations, and weather-resistant construction. Their units include Cam-Lock, twist-lock, and GFCI-protected outlets, suitable for industrial, construction, and entertainment applications. Shengen offers both mobile and permanent installation units, with advanced safety features like circuit breakers, surge protection, and ground fault protection . Walther-Werke manufactures construction site power distributors with robust sheet steel housings designed for outdoor use. Their products comply with IEC 61439 and IEC 60364 standards and include connection cabinets, main and group distributors, and terminal distributor cabinets. These units are wired by professional electricians and tested for safe operation, supporting rapid deployment and energy measurement on construction sites . Modipro provides reliable power distribution boxes for construction sites, workshops, and temporary installations. Their boxes handle high current capacities (16 A to 63 A) and feature multiple outlets with individual circuit breakers and RCD protection. Modipro offers mobile and fixed installation variants, ensuring safe and flexible power supply for heavy tools, machines, and lighting .

Considerations for Choosing a Manufacturer

- **Compliance and Safety:** Ensure products meet IEC, UL, or local standards.
- **Durability:** Look for weather-resistant and robust construction for outdoor use.
- **Customization:** Modular designs and flexible configurations allow adaptation to project-specific needs.
- **Support Services:** On-site installation guidance, after-sales service, and remote monitoring capabilities enhance reliability.
- **Sustainability:** Eco-friendly materials and energy-efficient designs align with modern construction and green building goals. These manufacturers provide comprehensive solutions for construction site power distribution, combining safety, flexibility, and efficiency to meet diverse project requirements.
