

Dubai Cold Galvanized Cable Tray Price List

Overview

Price List Cable Tray 2024 - Free download as PDF File (.pdf), Text File (.txt) or view presentation slides online.

Key Takeaways

The cost of cold-galvanized (GI) cable trays in Dubai typically ranges from AED 150 to AED 500 per 3-meter tray, depending on size, thickness, and industrial specifications.

Price Estimates by Size and Specification

- Small trays (100mm x 50mm): These are suitable for light industrial or commercial applications and generally cost around AED 150-200 per 3-meter tray. They offer corrosion resistance and durability due to the galvanized coating, making them ideal for indoor and moderately exposed environments (Danasteel UAE) .
- Medium trays (300mm x 50mm, 2mm thickness): Designed for larger cable bundles in industrial or commercial setups, these trays are cost-effective and corrosion-resistant, with prices typically around AED 250-350 per tray (Fepy) .
- Large trays (600mm x 50mm, 3m length): Suitable for heavy-duty industrial applications, these trays are strong, durable, and corrosion-resistant, with prices ranging from AED 400-500 per tray (Fepy) .

Factors Affecting Cost

- Material Type: Galvanized iron (GI) is more affordable than stainless steel or HDG trays, but still provides excellent corrosion resistance for indoor and outdoor use .

- **Tray Dimensions:** Width, height, and thickness directly influence the price; larger and thicker trays designed for heavy loads cost more .
- **Project Environment:** Trays for outdoor or harsh industrial conditions may require additional protective coatings, slightly increasing cost .
- **Installation Accessories:** Supports, brackets, and couplers are often sold separately, which can add to the overall project cost .

Additional Considerations

- Most GI trays are perforated to allow ventilation and prevent overheating of cables .
- Trays can be cut or modified on-site, but care must be taken to maintain galvanization on cut edges to prevent corrosion .
- Bulk purchases or supplier negotiations in Dubai may reduce per-tray costs, especially for large-scale industrial projects. In summary, cold-galvanized cable trays in Dubai are priced based on size, thickness, and application, with small trays starting around AED 150 and large industrial trays reaching up to AED 500 per 3-meter section. Proper selection ensures durability, corrosion resistance, and safe cable management.
