

Dutch power fiber optic cable manufacturer

Overview

Examples include the well-known Dutch FttH pioneers Reggefiber and CIF, the Municipality of Rotterdam and Dutch KPN.

Key Takeaways

FibreMax, LGCE, Leadcom, and MCAP are leading Dutch manufacturers of high-performance fiber optic cables, serving energy, industrial, and telecommunications sectors.

FibreMax is a Dutch company specializing in advanced synthetic fiber cables, including solutions for the energy sector and offshore wind applications. Their cables are 85% lighter than steel, corrosion-resistant, and designed for long-term durability, making them suitable for demanding industrial and energy projects. FibreMax also offers custom-engineered solutions for mooring, mining, and fixed structures, emphasizing high performance and sustainability (FibreMax) . LGCE focuses on fiber-to-the-home (FTTH) systems and provides a wide range of fiber optic cables for telecommunications networks. They supply products to major Dutch operators like Reggefiber and KPN, offering turnkey solutions, pre-assembled housings, and technical support for large-scale deployments (LGCE) . Leadcom operates through its LeadCom Fiber Works division, providing fiber optic cable solutions for FTTH, FTTB, and long-haul backbones. They specialize in designing and constructing optical distribution networks, supporting both urban and rural connectivity projects (Leadcom) . MCAP manufactures customized fiber optic cables and modules for industrial, defense, and aerospace applications. They produce UV-resistant and weatherproof cables, offering end-to-end services from design to final product assembly, suitable for high-reliability environments (MCAP) .

Additional Considerations

The Netherlands has a well-developed telecommunications infrastructure, which supports advanced fiber optic manufacturing. Companies in this sector often comply with EU standards and environmental regulations, and they focus on innovation, sustainability, and high-performance solutions. Applications range from telecom networks and smart city projects to energy and offshore wind installations (Ensun) . These manufacturers provide a combination of custom design, high durability, and specialized expertise, making them suitable partners for projects requiring robust and reliable fiber optic solutions in both industrial and energy sectors.
