

European Style Ladder Cable Tray Quotation

Overview

These products are designed to carry heavier cable loads compared to the standard perforated cable trays.

Key Takeaways

You can request a quotation for European-style ladder cable trays directly from specialized suppliers offering DIN EN 61537-compliant systems. Key Suppliers and Options

- Ekabel24 - Offers a wide range of cable trays and ladders in hot-dip galvanized steel, stainless steel, and halogen-free plastic. Their products comply with DIN EN 61537 and international standards, suitable for indoor and outdoor installations. They provide high load-bearing capacity, corrosion resistance, and fast installation options, ideal for industrial, construction, and renovation projects (Ekabel24) .
- Eurostrut - Provides ladder cable trays made of hot-dip galvanized or stainless steel, available in various widths, heights, and configurations. Their open or perforated designs reduce overheating risks and allow flexible installation. Quotations can be requested directly via their webshop for industrial and marine applications (Eurostrut) .

- Eurotray Support Systems – Specializes in heavy-duty cable ladders for high-load applications, including data centers and food manufacturing plants. They offer complete systems with mounting supports, fittings, and accessories, including solutions for raised floors and conductive grounding. Custom quotations are available for turnkey installations (Eurotray) .
- Trayco – Belgian manufacturer providing cable trays, mesh trays, and ladders with tailored solutions. They offer project-specific advice and customized quotations, ensuring the correct materials and configurations for your installation needs (Trayco) .

Factors Affecting Quotation

- Material: Galvanized steel, stainless steel, aluminum, or halogen-free plastic.
- Dimensions: Width, height, and length of ladder trays.
- Load Capacity: Standard vs. heavy-duty applications.
- Accessories: Elbows, tees, reducers, covers, and mounting hardware.
- Compliance: European standards (DIN EN 61537) and safety regulations.
- Installation Environment: Indoor, outdoor, industrial, or marine.

How to Request a Quotation

- Identify the required tray type (ladder, perforated, or solid).
- Specify dimensions, material, and load requirements.
- Include quantity and any special accessories.
- Contact suppliers via their webshop or sales email to request a formal quotation.
- For large or custom projects, consider requesting technical consultation to ensure compliance and optimal design. By providing these details, suppliers like Ekabel24, Eurostrut, Eurotray, and Trayco can generate accurate quotations tailored to your project requirements.
