

Fuse-type three-level distribution box

Overview

1.1. : CONSTRUCTIONAL FEATURES :- L.T. Distribution Box shall be outdoor type and have suitable enclosure (factory built assembly) manufactured by Thermosetting Plastic i.e.

Key Takeaways

The FuseBox TPN03FBX is a 3-way TPN distribution board featuring a factory-fitted Type 2 SPD and a 125A 4-pole main switch. This sleek unit boasts 3 usable three-phase ways, ensuring that your electrical infrastructure remains robust and reliable. With over 30 years of experience in electrical wholesaling and distribution, we're proud to offer an extensive range of high-quality 3-phase fuse boxes and distribution boards designed to meet the needs of both. The MDB Series 58 V 200 A Waterproof MIDI® Fuse Power Distribution Box is an internally bussed fuse holder designed for the high current loads and harsh conditions typically seen in applications such as construction vehicles and agricultural equipment. Effectively acting as a power distribution. In this guide, we'll break down the 12 main types of distribution boxes in a way that's easy to understand. We'll chat about what each one does, where it shines, and then dive into how to choose the perfect box for your needs. With a 16kA busbar rating and IP3X enclosure, it's ideal for commercial and light industrial use.
