

How much does a fixed-sided ladder-type cable tray cost

Overview

Ladder cable tray pricing typically ranges from \$3-7 per foot for standard galvanized steel systems, making them the most economical choice for basic industrial applications. These innovative support systems are engineered to organize, protect, and route electrical cables throughout commercial, industrial. Basic cable tray systems cost \$3-15 per foot depending on type and material. Installation labor adds \$5-8 per foot to total project costs. Ladder trays typically cost 20-30% less than solid bottom systems. Bulk orders of 1000+ feet can reduce unit pricing by 15-25%. Regional variations can impact. Usually, the cost of cable trays depends on the kind of material used to make them and the kind of load they can support. Galvanized iron and steel trays usually cost more than simple wire trays. Heavy-duty commercial cable trays are more expensive than light-duty ones. This article talks about the Cable Ladder Cost Per Meter. I will give you a rough idea of the price.
