

How much does a standard distribution box cost in Suriname

Overview

Surface-Mounted Small Distribution/Fuse Box/Distribution Box Surface. Our prices include the product cost, international shipping, import duties, customs.

Key Takeaways

Distribution boxes in Suriname typically range from USD 50 to over USD 500 depending on type, capacity, and brand. Price Overview

For small indoor distribution boxes suitable for residential or light commercial use, prices generally start around USD 50–100 for units with 2–12 modules and a maximum capacity of 63A, often with DIN rail and PE/N terminals included . Mid-range boxes, such as 12–30 circuit panels with 125–150A ratings from brands like General Electric, Eaton, or ABB, can cost between USD 150–300 . Larger or industrial-grade distribution boxes, including busway end tap boxes or integrated power system panels, may exceed USD 500, especially for high-capacity or three-phase systems .

Types and Features

- Surface-mounted small distribution boxes: IP40 rated, fire-retardant, maintenance-free, suitable for wall mounting, with 2–36 modules .
- Indoor commercial panels: Hinged covers, multiple knockouts for cable entry, 125–225A capacity, compatible with 127/220V or 220/480V systems .

- Industrial busway or breaker boxes: High-capacity units for three-phase systems, often used in factories or data centers, with overload protection and grounding features .

Suppliers and Availability

Local suppliers and manufacturers in Suriname include WillisCreek Networks, which provides custom electrical panels and distribution boxes, and international platforms like Machinio and Go4WorldBusiness, which list both new and used units for sale . Delivery options are available across Suriname, and bulk purchases may offer discounts.

Considerations

- Voltage and amperage requirements: Ensure the box matches your system's voltage (127/220V or 220/480V) and current rating.
- Indoor vs outdoor use: IP-rated enclosures are recommended for outdoor or humid environments.
- Brand and warranty: Established brands like GE, Eaton, ABB, and Square D provide better reliability and support.
- Installation: Professional installation is recommended for safety and compliance with local electrical codes. In summary, residential distribution boxes in Suriname start around USD 50, while larger commercial or industrial units can exceed USD 500, with prices influenced by capacity, brand, and features .
