

How to fold a box with pigtails

Overview

With so many celebrations going on, time-savers are key, which is why this folded pigtail braid style is so genius.

Key Takeaways

You can create a decorative origami box with pigtail-style flaps by folding a classic origami box and twisting or looping the corner flaps to form pigtails. Materials Needed

- A square sheet of paper (origami paper works best)
- A flat surface for precise folding
- Optional: bone folder or fingernail for sharp creases

Step-by-Step Instructions

- Prepare the Paper Start with a square sheet of paper. Fold it in half vertically and horizontally, then unfold to create intersecting crease lines at the center .
- Fold the Corners to the Center Bring each corner of the square to the center point, forming a smaller square. Crease each fold sharply .
- Create the Base and Walls Fold the left and right edges to the center, then unfold. Repeat with the top and bottom edges. Open the top and bottom flaps to a 90-degree angle to form the walls of the box .
- Form the Pigtails For each corner flap, twist or roll the paper outward to create a loop resembling a pigtail. You can fold the flap in half lengthwise and curl the tip slightly to enhance the effect. Repeat for all four corners .

- Secure the Shape Tuck the ends of the pigtail flaps into the box edges or use a small dab of glue if needed. Ensure the base is stable and the walls stand upright .

- Finishing Touches Adjust the loops so they are symmetrical and visually balanced. You can also decorate the box with stickers, ribbons, or patterned paper to highlight the pigtail design .

Tips for Success

- Use thin but sturdy paper to make folding and curling easier.
- Make sharp creases with a bone folder or fingernail for a professional look .
- Practice on scrap paper first to perfect the pigtail loops before using decorative paper.
- Rotate the paper slightly when folding corners to ensure the loops are evenly spaced . By following these steps, you can create a charming origami box with pigtail-style flaps suitable for gifts, small items, or decorative purposes .
