

Huawei fiber optic switch price 6

Overview

Huawei FIBER SWITCH Price Huawei FIBER SWITCH price from Huawei price list 2022, Huawei router price, Huawei switch price Huawei SWITCH Price Fiber Switch.

Key Takeaways

Huawei fiber optic switches typically range from \$3,000 to \$15,000 depending on model, port configuration, and features.

Huawei offers a variety of fiber optic switches suitable for enterprise and data center networks. For example, the SNS5604/SNS5608 series includes 32Gb SX6 extend blades with 34 ports (1632Gb SFPs) or 64-port 32Gb FC port blades with 8128Gb QSFPs, while the SNS3696E series offers 32-port QSFP activation options . Smaller switches, such as the 8Gb FX8-24 extend blade, provide 24 ports with 12*8Gb multimode SFPs, suitable for mid-sized deployments . Pricing depends on the number of ports, type of SFP/QSFP modules, and additional features like ICL port activation or cascading capabilities. For instance, a fully equipped 32Gb SX6 switch with multimode SFPs may cost several thousand dollars, whereas high-end 128Gb QSFP configurations can reach over \$10,000 . Huawei also provides OptiXstar FTTR solutions for fiber-to-the-room deployments, which integrate optical modems with Wi-Fi 6 for ultra-broadband access, though these are more focused on home or small enterprise networks rather than core fiber switches . For the most accurate and up-to-date pricing, it is recommended to contact Huawei authorized distributors or resellers, as prices vary by region, configuration, and current market conditions.
