

Imported Single-Fiber Bidirectional 1G

Overview

Our 1G BiDi SFP transceivers enable full-duplex communication over a single fiber, reducing fiber usage while maintaining reliable performance. Ideal for enterprise networks, data centers, and telecom applications, these modules support long-distance transmission with low power. SFP transceiver that supports 1G connections up to 3 km using single-mode fiber with a simplex LC UPC connector. Power Consumption CLASS 1 LASER PRODUCT, IEC/EN 60825-1:2014 Do not look into the ends of the fiber optic cable or SFP module while converters are. This is where BiDi (Bidirectional) SFP optical modules become a game-changer, especially the versatile 1G BiDi SFP. This guide dives. How many types of 1G SFP Transceivers do you know?

— A Classified Field Guide 1G SFPs aren't "all the same. " Media (fiber vs copper), wavelength, reach, connector, temperature grade, and even application domain (Ethernet, SONET/SDH, PON, Fibre Channel) all matter. This technology allows for considerable fiber reductions and decreases deployment costs.
