

India Temporary Power Distribution Box

Overview

Distribution Box Manufacturer in IndiaVLI is your trusted electrical distribution box manufacturer for reliable and high-quality power management Electrica.

Key Takeaways

Temporary power distribution boxes in India are portable electrical units designed to safely distribute power at construction sites, outdoor events, and industrial setups.Overview

A temporary power distribution box (also called a mobile distribution assembly or temporary switchboard) is a compact, portable unit that receives electrical power from a main source and distributes it to multiple circuits or equipment. These boxes are essential for safe, organized, and controlled power distribution in temporary setups, ensuring protection against overloads, short circuits, and electrical hazards .

Key Features

- **Material and Construction:** Often made from polycarbonate, aluminum alloy, or galvanized steel, providing durability and resistance to impact and weather conditions .
- **Safety:** Equipped with circuit breakers, surge protection, and overload protection to safeguard both personnel and equipment .
- **Mobility:** Designed for easy relocation, making them ideal for construction sites, outdoor events, and temporary industrial setups .

- **Weatherproofing:** Many units are impact-resistant and weatherproof, suitable for outdoor use .
- **Modular Design:** Allows for customization and expansion to meet specific power requirements .
- **Cable Management:** Organized entry and exit points reduce the risk of damage and tripping hazards .

Applications

- **Construction Sites:** Provides temporary power for tools, lighting, and machinery.
- **Outdoor Events:** Powers stages, lighting, sound systems, and catering equipment.
- **Industrial Use:** Supports temporary setups in factories or workshops where permanent wiring is not feasible.
- **Residential or Commercial Projects:** Can be used during renovations or temporary installations.

Pricing and Suppliers

- Mas Engineering Solutions offers a semi-automatic polycarbonate temporary power distribution box at approximately ₹27,000 per unit in Chennai, Tamil Nadu .
- Other suppliers and manufacturers across India include Vaibhav Laxmi Industries, Sunshine Electric Co. Pvt. Ltd., and Yazaki Wiring Technologies India, providing a range of boxes with different materials, capacities, and safety features .
- Online marketplaces like TradeIndia and IndiaMART list multiple options for temporary power distribution boxes, allowing buyers to compare specifications and prices .

Conclusion

Temporary power distribution boxes in India are versatile, safe, and durable solutions for managing electrical power in temporary or mobile setups. When selecting a unit, consider material, safety features, mobility, and capacity to ensure it meets the specific requirements of your site or event .
