

Location of cable tray manufacturers in Western Europe

Overview

cable tray Manufacturer/Producer | B2B companies and suppliersWe are a manufacturer of customized wire mesh that meets your exact specifications and requir.

Key Takeaways

Cable trays in Western Europe are primarily manufactured in Germany, Italy, and the Netherlands by specialized companies adhering to strict European standards.Germany

Germany is a major hub for cable tray production, hosting numerous leading manufacturers known for high-quality and precision-engineered products. Notable companies include Niedax Group, OBO Bettermann, Icotek, Tsubaki Kabelschlepp, Rosenberger-OSI GmbH, and TKD KABEL GmbH. These manufacturers produce a wide range of cable trays, including ladder, perforated, wire mesh, and GRP trays, serving industries such as construction, energy, industrial facilities, and transportation . Germany's manufacturers are recognized for compliance with EN and IEC standards, ensuring durability, safety, and performance .

Italy

Italy is another key producer, with companies like the Spina Group specializing in standard and custom cable tray systems. Italian manufacturers focus on ladder and perforated trays suitable for heavy-duty applications, including shipbuilding, industrial plants, and infrastructure projects. Their products comply with UNI EN 61537 and NEMA VE1 standards, ensuring safe and effective cable management .

Netherlands

In the Netherlands, Stago cable trays are manufactured locally. Dutch production emphasizes consistent quality, high load capacity, and fire-resistant installations certified according to DIN 4102-12. Stago trays are designed for fast installation and are available in various sizes, configurations, and custom finishes .

Other Western European Manufacturers

Additional manufacturers across Western Europe include Ebo Systems (specializing in GRP trays for extreme environments) and Eurotray (offering durable and adaptable cable trays for large-scale installations), . These companies serve sectors such as energy, water treatment, chemical, and heavy industries, highlighting the diversity of applications for cable trays in the region.

Summary

Western Europe hosts a robust cable tray manufacturing industry, with Germany, Italy, and the Netherlands as primary production centers. Manufacturers in these countries produce a variety of cable tray types, including ladder, perforated, wire mesh, and GRP trays, all adhering to stringent European standards for safety, durability, and performance . These products support industrial, commercial, and infrastructure projects across Europe and beyond.
