

Network cabling distribution box price

Overview

Amazon.com: Cable Distribution BoxCheck each product page for other buying options. This product has sustainability features recognized by trusted certifi.

Key Takeaways

Network cabling distribution boxes typically range from \$10 to \$200 or more, depending on type, capacity, and features.

Price Overview

- **FTTH Distribution Boxes:** Small fiber optic distribution boxes for residential or small-scale FTTH projects generally start around \$10-\$30 for 2-8 port units. Larger units with 16-48 ports can cost \$50-\$150, depending on material (PC or ABS), IP rating, and built-in splitter options .
- **Fiber Termination Boxes:** Wall-mounted or pole-mounted fiber termination boxes designed for splicing and distribution in FTTx networks range from \$20-\$100 for 2-16 port models, with higher-density or outdoor-rated boxes costing more .
- **Network Enclosures / Server Cabinets:** For broader network cabling management, wall-mount or floor-standing server cabinets (6U-12U) can range from \$100-\$200+, offering features like locking doors, glass panels, and load capacity for IT equipment .

- **Wholesale / OEM Pricing:** Bulk orders or customized distribution boxes can reduce per-unit costs significantly. Prices vary based on specifications, IP rating, modular design, and factory volume. Custom branding or busbar modifications may increase cost .

Factors Affecting Price

- **Port Capacity:** More ports generally increase cost due to additional splicing trays, adapters, and internal management.
- **Material & Durability:** Flame-retardant PC or ABS materials, weatherproofing, and IP-rated enclosures for outdoor use are more expensive.
- **Installation Type:** Wall-mounted boxes are usually cheaper than pole-mounted or floor-standing cabinets.
- **Additional Features:** Built-in splitters, dustproof doors, locking mechanisms, and modular designs can raise the price.

Summary

For typical network cabling projects, small indoor FTTH boxes cost \$10-\$50, medium-sized boxes with 16-24 ports cost \$50-\$100, and larger or outdoor-rated enclosures can reach \$150-\$200+. For enterprise or wholesale purchases, contacting suppliers for bulk pricing and customization options is recommended to get the most cost-effective solution .
