

Network rack depth 1100

Overview

Most IT environments default to 42U, 19-inch width, and 1000–1200 mm depth unless space constraints or special equipment dictate otherwise. The Vertiv VR Rack VR3150 is a 42U server rack built with reliable engineering and is designed for simple and easy configuration. It has dimensions of 2000mm x 800mm x 1100mm (height, width, and depth), and has a deep frame that provides users around 2. As a network cabinet, suggesting distance between the front rail and rear rail is 700mm. ports, perforated doors to promote efficient airflow, adjustable mounting rails and more. They re delivered in the color RAL 9011 (black). These racks are multi-functional rack enclosures designed to meet current IT market trends and applications ranging from high-density computing. The front and rear doors are both lockable, and the mesh design increases airflow to provide passive cooling. Cable management channels horizontal or Vertical optional.
