

Palau Waterproof Distribution Box Customization Price

Overview

From pre-drilled entries to pre-wired kits, we offer a custom waterproof distribution box service for scale deployments.

Key Takeaways

The price of a customized waterproof distribution box in Palau varies depending on size, materials, IP rating, and additional features, with options for IP65–IP66 enclosures and OEM customization.

Waterproof distribution boxes can be tailored to meet specific electrical and environmental requirements. Common customization features include:

- **Materials:** ABS plastic, polycarbonate, or a combination of ABS bottom shell with PC transparent panel for durability and UV resistance .
- **IP Rating:** Options typically range from IP65 to IP68, providing protection against dust, water, and outdoor exposure .
- **Size and Layout:** Boxes can be designed to fit specific conductor gauges, number of circuits, or DIN rail configurations. Compact AT Series and larger HT Series enclosures are available for different terminal and wiring needs .
- **Pre-Wired Kits and Modular Components:** Some suppliers offer pre-drilled entries, pre-wired kits, and modular electrics for terminal power distribution .

- **Additional Customization:** CNC machining, laser cutting, inkjet printing, overlay sheet manufacturing, and OEM branding are available for bulk or specialized orders .
- Pricing Considerations

The cost of a customized waterproof distribution box depends on several factors:

- **Material and IP Rating:** Higher-grade materials and higher IP ratings (IP66–IP68) generally increase the price .
- **Size and Complexity:** Larger enclosures or those with multiple compartments, DIN rails, or pre-wired kits cost more .
- **Order Volume:** Wholesale or bulk orders often reduce per-unit pricing, while single custom units may be more expensive .
- **Supplier and Shipping:** Prices vary by manufacturer, and shipping to Palau may add additional costs due to logistics .

Typical Applications

Customized waterproof distribution boxes are widely used for:

- Outdoor lighting, street lights, and gardens
- Solar power systems and pumps
- Industrial and commercial low-voltage distribution networks
- Protection of circuit breakers and electrical terminals from dust, water, and UV exposure

How to Get a Quote

To obtain an accurate price for a customized waterproof distribution box in Palau:

- **Specify Requirements:** Include size, IP rating, material, number of circuits, and any pre-wired or modular needs.
- **Contact Suppliers:** Reach out to manufacturers or distributors offering IP65–IP68 enclosures with customization services, such as ZCEBOX, SinoBreaker, or Chinese OEM suppliers .
- **Request a Quote:** Provide detailed specifications to receive a tailored price, including shipping and any additional customization fees. By providing detailed specifications, you can ensure the supplier delivers a durable, weatherproof, and fully customized distribution box suitable for Palau's environmental conditions.
