

Price of 24-core fiber optic cable splice box

Overview

Fiber Splice Enclosure 24 Core, 1~4 Layer Horizontal Would you like to tell us about a lower price?

Can orderly store fiber connector Optic Terminal Box, 2.

Key Takeaways

The price of a 24-core fiber optic splice box typically ranges from \$20 to \$80 per unit, depending on type, brand, and installation features.

Price Range and Sources

- Amazon lists a 24-core horizontal fiber optic splice enclosure with reinforced plastic, waterproof, and flame-retardant features, generally priced around \$30-\$50 per unit depending on seller and shipping options .
- Alibaba and other wholesale suppliers offer 24-core splice boxes for \$20-\$40 per unit for bulk orders, with prices varying based on material quality, IP rating, and additional accessories .
- Specialized suppliers like TopFiberBox and MeFiberOptic provide small horizontal or cassette-type 24-core splice enclosures, often in the \$40-\$80 range, including features like IP65/IP68 sealing, multiple inlet/outlet ports, and wall or pole mounting options .

- Made-in-China suppliers offer rugged distribution boxes suitable for indoor/outdoor use, with multi-layer designs and splitter compatibility, typically priced \$25-\$60 depending on configuration and shipping .

Factors Affecting Price

- Material and Durability: Reinforced plastic or alloy enclosures with high IP ratings (IP65/IP68) cost more due to better waterproofing and environmental protection.
- Installation Type: Wall-mounted, pole-mounted, or underground enclosures may have different pricing. Outdoor-rated boxes are generally more expensive.
- Accessories and Capacity: Boxes with multiple splice trays, PLC splitter compatibility, or additional cable management features increase the cost.
- Order Quantity: Bulk purchases often reduce the per-unit price, especially from wholesale suppliers.
- Brand and Warranty: Established brands with warranties or certifications (CE, RoHS, ISO) may charge a premium.

Recommendation

For a single residential or small commercial installation, expect to pay around \$30-\$50. For bulk or industrial deployments, prices can drop to \$20-\$40 per unit if purchased directly from manufacturers or wholesale suppliers. Always check for IP rating, splice tray capacity, and warranty to ensure long-term reliability.
