

Price of Fireproof Cable Trays in Southern Europe

Overview

Detailed Price List for Fireproof Cable Trays in Spain By comparing suppliers and specifications, you can select a fireproof cable tray that balances cost.

Key Takeaways

Ordinary fireproof cable trays in Southern Europe typically range from €25 to €80 per meter, depending on material, fire rating, and supplier. Price Overview

The cost of fireproof cable trays varies based on material (steel, stainless steel, or halogen-free plastic), fire resistance rating, and tray type (perforated, ladder, or basket). Standard low-voltage fireproof trays for indoor use generally start around €25–€35 per meter, while higher-rated or heavy-duty trays for industrial or outdoor applications can reach €60–€80 per meter (Cablofil, Eurostrut, Trayco) . Custom sizes, integrated ends, or specialized coatings may increase the price further.

Factors Affecting Cost

- **Material:** Hot-dip galvanized steel is common and moderately priced; stainless steel or corrosion-resistant coatings increase cost.
- **Fire Rating:** Trays tested to DIN 4102-12 or equivalent standards for 30-90 minutes of fire resistance are more expensive due to testing and certification requirements .
- **Design and Load Capacity:** Ladder-type trays for heavy power cables or trays with integrated ends for faster assembly may cost more .

- **Supplier and Region:** Prices vary across Southern Europe (Italy, Spain, Portugal, Greece) due to shipping, local taxes, and supplier policies.

Purchasing Tips

- **Request Quotes:** Most suppliers like Eurostrut and Trayco provide quotes via their websites or sales teams .
- **Compare Specifications:** Ensure the tray meets your fire resistance, load, and environmental requirements.
- **Consider Bulk Orders:** Larger orders often reduce per-meter cost.
- **Check Standards Compliance:** Verify compliance with DIN EN 61537 or equivalent European standards for cable support systems . In summary, for ordinary fireproof cable trays in Southern Europe, expect a price range of €25–€80 per meter, with the final cost influenced by material, fire rating, design, and supplier. Contacting local distributors for exact quotes is recommended to account for regional variations and current stock availability.
