

Price of G 657A1ADSS optical cable for South Asian metro systems

Overview

G657A1 Fibre Optical Cable, 1km at ₹ 8500/piece in Shail Integrated - Offering G657A1 Fibre Optical Cable, 1km at ₹ 8500/piece in G657a1 Fiber Optic Cable.

Key Takeaways

As of mid-2026, G.657A1 optical fiber is trading at approximately \$22 per kilometer, with ADSS cable prices in South Asia reflecting similar market trends. Current Pricing

The G.657A1 bend-insensitive single-mode fiber is currently priced around \$22 per kilometer globally, up from \$12-14 per kilometer in mid-2025, representing an approximate 80% increase due to high demand and supply constraints. This price applies to raw fiber; pre-terminated ADSS cables or specialized metro-grade assemblies may carry additional costs depending on length, core count, and protective sheathing.

Regional Availability in South Asia

In India and neighboring South Asian countries, ADSS optical fiber cables are widely available from local suppliers and distributors. Online marketplaces and industrial suppliers list ADSS cables suitable for metro and urban deployments, with prices generally aligned with global fiber costs, though local logistics, import duties, and currency fluctuations can slightly increase the final procurement cost.

Market Factors Affecting Price

- **Supply Constraints:** Global fiber production is limited by preform bottlenecks, with major manufacturers operating at full capacity .
- **Demand Surge:** Military and industrial applications, including FPV drones and AI data centers, have increased competition for high-performance fibers, indirectly affecting metro system procurement .
- **Lead Times:** Typical delivery times for G.657A1 ADSS cables have extended from 4–6 weeks to 12–20 weeks, with some specialty orders facing up to 6-month backlogs .

Practical Considerations for Metro Systems

- **Bulk Procurement:** Ordering in larger quantities may help mitigate price volatility.
- **Supplier Selection:** Consider both Chinese manufacturers and regional distributors to balance cost and lead time.
- **Cable Specifications:** Ensure the ADSS cable meets metro-specific requirements, including tensile strength, crush resistance, and environmental protection. In summary, South Asian metro systems can expect to pay around \$22 per kilometer for G.657A1 fiber, with additional costs for ADSS cable assembly and local logistics. Planning for extended lead times and potential price fluctuations is essential for budgeting and project scheduling.
