

## Price of cable tray inlet funnel

### Overview

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

### Key Takeaways

Cable tray inlet funnels typically range from \$20 to \$150 or more, depending on material, size, and design.

Cable tray inlet funnels are specialized components used to guide cables from a tray into a branch, vertical run, or other transition points, ensuring organized and safe cable routing . Prices vary significantly based on several factors: Material: Funnels made from galvanized steel or stainless steel are more durable and suitable for industrial environments, costing more than plastic or lightweight metal versions . Size and Compatibility: The width, height, and design must match the existing cable tray. Larger or custom-sized funnels increase the price . Design Type: Standard straight funnels are generally less expensive, while T-branches, vertical transitions, or custom-formed pieces can cost more due to complexity . Supplier and Quantity: Bulk orders or industrial suppliers may offer discounts. For example, industrial stainless steel funnels can have volume pricing for 5, 10, or 25 pieces, which reduces the per-unit cost . Typical Price Range:

- Small, standard metal or plastic inlet funnels: \$20-\$50
- Medium industrial-grade steel funnels: \$50-\$100

- Large or custom stainless steel funnels: \$100-\$150+ For precise pricing, it is recommended to contact suppliers directly or request a quote online, providing the funnel dimensions, material, and quantity needed . Suppliers like eibabo.us and Toledo Metal Spinning can provide quotes based on your specifications. Additional Considerations: Ensure the funnel's material and surface protection match the installation environment, and verify that the funnel aligns with the cable tray system to maintain proper bending radii and cable protection .
