

## Price of transparent switch for distribution box for sale

### Overview

Get free shipping on qualified Transfer Switches & Kits products or Buy Online Pick Up in Store today in the Electrical Department.

### Key Takeaways

Transparent switch boxes for distribution panels typically range from \$5 to \$50 per unit, depending on size, material, IP rating, and order quantity.

Transparent switch boxes are designed to protect electrical components while allowing visibility of switches and circuit breakers. They are commonly made from PVC or durable plastics and come with IP65–IP67 waterproof ratings, making them suitable for indoor and outdoor applications. These boxes are used in industrial automation, telecommunications, and general electrical distribution systems.

#### Price Range

- Small wall-mounted PVC boxes: Approximately \$5–\$15 per unit for standard sizes and IP65 rating.
- Medium to large distribution boxes with transparent covers: Around \$20–\$50 per unit, often with IP66–IP67 ratings and enhanced durability.

- Wholesale or bulk orders: Prices can drop significantly per unit, especially for orders of 50-100+ units, and suppliers often offer OEM customization including logo embossing or custom busbar layouts .

#### Features Affecting Price

- Material: PVC is cheaper, while aluminum or stainless steel options cost more.
- IP Rating: Higher waterproof and dustproof ratings (IP66-IP67) increase cost.
- Size and Capacity: Larger boxes for multiple switches or breakers are more expensive.
- Customization: OEM branding, cable entry modifications, and modular designs can add to the price.

#### Where to Buy

- Alibaba and AliExpress: Offer a wide range of transparent switch boxes with global shipping and competitive pricing .
- Made-in-China: Provides factory-direct options with customization and bulk discounts . For precise pricing, it is recommended to contact suppliers directly with your specifications, quantity, and IP rating requirements to get a tailored quote.
