

Rack 1200mm deep three-year warranty

Overview

LENOVO 93614PX Designed to enhance operational efficiency, this rack features a depth of 1200 mm, allowing ample room for cable Lenovo 93614PX 42u 1200mm D.

Key Takeaways

Several 1200mm deep server racks are available with a three-year warranty, including Lenovo 42U and Value 45U models. Lenovo 42U 1200mm Deep Rack

The Lenovo 42U 1200mm deep rack is an industry-standard 19-inch server cabinet designed for high-availability environments. It features expansive rear channels, tool-less button mounts for up to six 0U vertical PDUs, and easy accommodation for vertical cable organizers or other equipment. These racks are optimized for floor space, installation speed, cable management, and serviceability. Lenovo offers a three-year limited warranty on these racks, ensuring coverage for manufacturing defects and support for standard use .

Value 45U 1200mm Deep Rack

The Value 45U server rack from Server Room Environments is 800mm wide and 1200mm deep, with an internal depth of 1070mm. It comes with a free upgrade to a three-year warranty for online orders. The rack is powder-coated in black or grey, with other colors available on request. Optional features include top cable entry, fan trays, heavy-duty castors, and flat-pack delivery. This rack is suitable for computer rooms and data centers requiring a robust, free-standing solution .

IBM 42U and 47U 1200mm Deep Racks

IBM also offers 42U and 47U 1200mm deep static and dynamic racks that conform to the EIA-310-D standard. These racks include thermal optimization, perforated front doors for airflow, side-wall compartments for PDUs and switches, cable management channels, and heavy-duty casters with outriggers for stability. While IBM's warranty details are not explicitly listed in the source, these racks are designed for high-density server environments and provide extensive serviceability and security features .

Key Considerations

- Depth: 1200mm (approx. 47 inches) allows for large rear cable channels and vertical PDU installation.
- Height: Options include 42U, 45U, and 47U depending on server density requirements.
- Warranty: Lenovo and Value racks explicitly offer a three-year warranty, while some other manufacturers may vary.
- Additional Features: Tool-less installation, cable management, fan trays, and optional castors or flat-pack delivery. These racks are suitable for data centers, server rooms, or high-density computing environments where depth, accessibility, and warranty coverage are important.
