

Terminal box with four fiber optic panels

Overview

Desktop Terminal Box Desktop fiber optic terminal box supporting 4 to 12 ports with SC, LC, FC, or ST adapters.

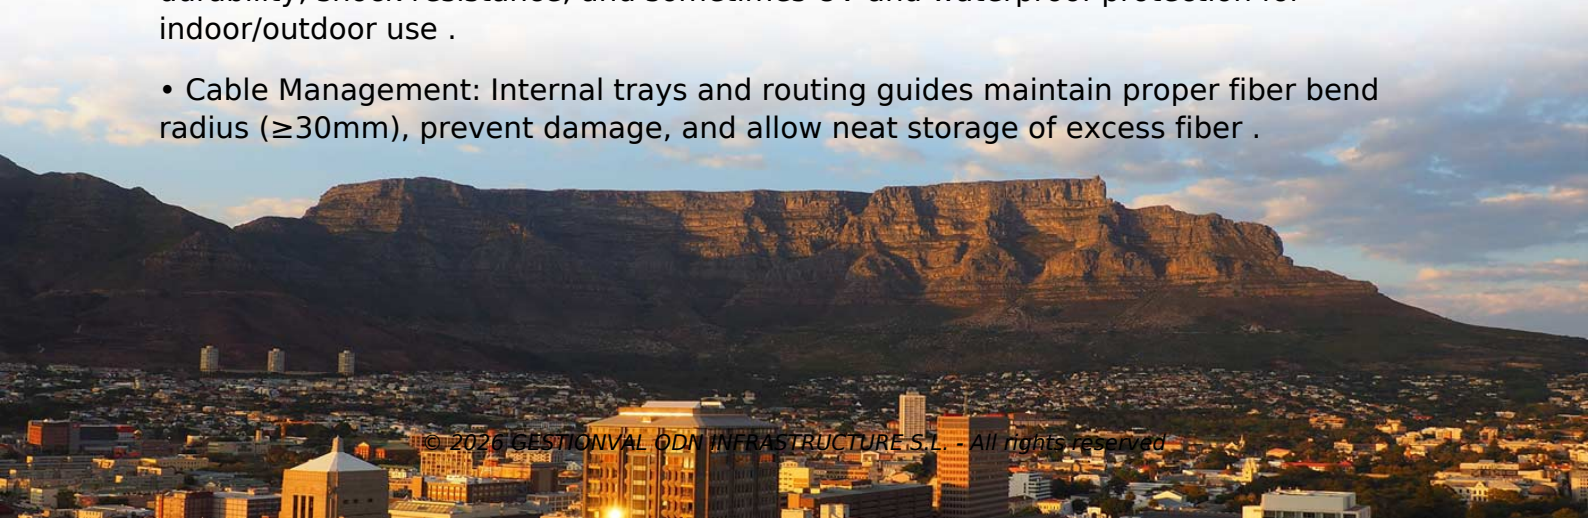

Key Takeaways

A 4-port fiber optic terminal box provides compact, secure, and organized termination and splicing for indoor fiber networks, supporting SC, LC, FC, or ST connectors. Overview

A 4-port fiber optic terminal box is designed for indoor fiber termination and distribution, commonly used in residential buildings, commercial premises, villas, and small offices. It serves as the end-point for fiber connections, allowing drop cables to connect to end-user devices such as ONTs, routers, or converters, while providing protection and management for optical fibers and pigtails .

Key Features

- Port Configuration: Typically includes 4 adapter ports, supporting SC, LC, FC, or ST connectors, and can accommodate 4-core or 8-core fiber splicing .
- Material and Durability: Available in metal or high-quality ABS plastic, offering durability, shock resistance, and sometimes UV and waterproof protection for indoor/outdoor use .
- Cable Management: Internal trays and routing guides maintain proper fiber bend radius ($\geq 30\text{mm}$), prevent damage, and allow neat storage of excess fiber .

- **Splicing and Termination:** Supports fusion splicing, pigtail termination, and patching, with heat shrink sleeve slots for added protection .
- **Mounting:** Wall-mountable with standard screw holes, compact design for tight spaces, and single-door access with locking mechanisms for security .
- **Cable Access:** Multiple entry points allow flexible deployment and easy connection of drop cables .

Advantages

- **Compact and Space-Saving:** Small footprint suitable for indoor installations without occupying excessive wall space .
- **Versatile Connector Support:** Compatible with SC, LC, FC, and ST adapters, enabling flexible network design .
- **Enhanced Protection:** Protects fibers from mechanical stress, dust, and accidental damage while maintaining network reliability .
- **Ready-to-Use Options:** Some models come pre-equipped with pigtails and adapters for immediate deployment, reducing installation time .

Applications

- **FTTH Deployments:** Ideal for connecting fiber drop cables to end-user devices in homes or small offices .
- **Telecom and Enterprise Networks:** Provides organized termination and splicing for low-density fiber cabling .
- **Residential and Commercial Premises:** Suitable for villas, apartments, and small business environments where compact, secure fiber termination is required .

Example Models

- **Topfiberbox 4-Port Wall Mount Fiber Termination Box:** Metal construction, supports SC, LC, FC, ST connectors, 4-core fiber termination, and splicing .
- **HTB8010 4-Port FTTH Termination Box:** ABS housing, supports SC adapters, internal splice tray, dual cable entries, wall-mount ready .
- **L-com LCFTB-104-LC:** Metal box with 4 LC/UPC duplex couplers and 8 SM pigtails, compact design for FTTH setups .
- **ShowMeCables ECFTB-104-SCA:** Wall-mounted, 4 SC/APC couplers with pigtails, ready for splicing and termination . These 4-port fiber optic terminal boxes provide a reliable, organized, and secure solution for indoor fiber network termination, ensuring efficient connectivity and protection for optical fibers.

4 Port Metal Fiber Termination Box (SC/LC/FC/ST)- Topfiberbox

The small metal enclosure supports a variety of front adapter panel, allowing termination of SC, LC, FC, and ST fiber optic

4 Port Surface Mount Fiber Wall Plate Box for SC/APC Adapter

The 4 port fiber wall plate box is surface mount termination enclosure designed to provide a reliable and efficient fiber termination

Fiber Optic Termination Enclosures & Adapter Panels | LANshack

Available for both 12-fiber and 24-fiber configurations, they fit into fiber optic enclosures and provide a reliable, organized solution for

GINTOOYUN Fiber Optical Terminal Junction Box,4-Port Fiber

About this item The optical fiber terminal box is the end connector of an optical cable. It provides a protective connection between the

Indoor/Outdoor 4-Port Plastic Fiber Optic Wall Mount Terminal Box

This plastic indoor/outdoor fiber optic terminal box has a latching top for easy access and accepts up four SC simplex or four LC

Fiber Optic Terminal Box — Wall & Desktop | TTI Fiber

Desktop Terminal Box Desktop fiber optic terminal box supporting 4 to 12 ports with SC, LC, FC, or ST adapters. Designed for office
