

Type 86 fiber optic panel mounting with 2 holes

Overview

Designed for quick setup, this fiber optic box includes pre-drilled holes for easy two-screw mounting.

Key Takeaways

The Type 86 fiber optic panel with 2 holes is a compact, wall-mountable panel (86x86mm) designed for terminating up to 2 fibers with SC adapters, featuring pre-drilled holes for easy two-screw installation.

- **Dimensions and Mounting:** Standard 86-type size (86x86x25mm) with two pre-drilled mounting holes for secure wall installation, compatible with global 86mm wall boxes and faceplates .
- **Fiber Capacity:** Supports up to 2 SC adapters, suitable for single or dual-core fiber connections, making it ideal for FTTH, FTTB, or LAN networks .
- **Material and Protection:** Constructed from high-impact ABS plastic, providing waterproof and dustproof protection to safeguard fiber splices and terminations .
- **Internal Design:** Includes a fixing plate for organizing fibers, maintaining proper bend radius, and preventing micro-bending or mechanical stress. Some models feature a front and back double-panel design for aesthetic appearance and hidden screw holes .
- **Cable Management:** Allows flexible entry/exit for drop cables or indoor soft cables, with internal routing to protect fibers and simplify maintenance .

- Applications: Suitable for residential, office, and telecom environments, including multi-dwelling units, data centers, and small business premises .

Installation and Use

- Tool-Free Termination: Many Type 86 panels allow plug-in installation of SC adapters without specialized tools, saving labor time on-site .
- Compact and Aesthetic: Rounded corners and minimalist design make it suitable for visible wall installations in homes or offices .
- Maintenance: Removable covers provide easy access to fibers for splicing, testing, or rearrangement . This Type 86 fiber optic panel is a reliable, compact solution for managing fiber connections in small-scale or residential FTTH deployments, offering both protection and ease of installation.
