

Which Belgian manufacturer makes the best galvanized cable trays

Overview

Thanks to innovation and improved technology, we have evolved into a one-stop shop for Cable Tray manufacturers.

Key Takeaways

Trayco and Eurotray are among the leading Belgian manufacturers of high-quality galvanized cable trays, offering durable, compliant, and customizable cable management solutions. Trayco

Trayco is a fully Belgian company specializing in cable trays, mesh trays, and cable ladders, with a strong focus on galvanized steel products. Founded in 2012, Trayco has quickly established itself as a trusted player in the cable support systems industry. They provide customized solutions, installation guidance, and project-specific advice, ensuring that their galvanized cable trays meet both industrial and commercial standards. Trayco emphasizes quality, optimization, and consulting, making them a reliable choice for complex installations.

Eurotray

Eurotray offers a wide range of metal cable management systems, including heavy-duty galvanized cable trays suitable for high-load applications. Their products are designed for vertical and industrial installations, such as data centers, food manufacturing plants, and other environments requiring high hygiene and safety standards. Eurotray provides complete systems, including mounting supports, connection parts, and fittings, ensuring compliance with electrical safety and structural requirements. Their solutions are tailored for both standard and specialized projects, making them a strong competitor in the Belgian market.

Key Considerations

When choosing the best manufacturer, consider the following:

- **Material quality:** Both Trayco and Eurotray use premium galvanized steel for corrosion resistance and durability.
- **Customization:** Trayco offers tailored solutions for specific project needs, while Eurotray provides turnkey systems for complex installations.
- **Support and consulting:** Trayco emphasizes advisory services during installation, whereas Eurotray focuses on complete system integration.
- **Application suitability:** Eurotray is particularly strong in industrial and high-load environments, while Trayco is versatile across commercial and industrial projects.

Conclusion

For high-quality galvanized cable trays in Belgium, Trayco is recommended for its comprehensive consulting and customization services, while Eurotray excels in heavy-duty and industrial applications. Both manufacturers are recognized for their durable, compliant, and reliable cable management solutions, making them top choices for Belgian projects.
